

BONUS 3 OF 4

30 Roblox Game Ideas

YOU GET

30 buildable concepts, mapped to the skills you already have.

Stuck on what to build after Coin Rush? Here are 30 ideas, each with its core loop, the core systems it reuses, and a fair way to monetize it. They're starting points, not guarantees: what a game earns depends on how fun it is and how well you market it.

How to pick

1. **Pick a genre you love playing.** You'll spend weeks inside it.
2. **Start small.** Choose an idea you can ship in 2–4 weeks, then grow it with updates.
3. **Twist one thing.** A familiar genre plus one fresh idea beats something completely unfamiliar.
